25% of internet users in the United States only access the internet on a mobile device.

of mobile local searches result in purchase

of consumer search about products, reviews, and rating before buying

of online consumers prefer website to phone or email for questions

Think about your company's website:

- How does your website look on mobile devices?
- Is your website interactive for the needs of your customers?
- Does it showcase your most important services?

If you answered no to any of these questions...
